Safety regulations	are standards designed to ensure the safety of products, activities or processes, etc.
Unattended luggage	In a sentence, your luggage is unattended when you don't have immediate control of it. This may be leaving it out of sight, with another person, or in a place where you can't prevent its theft or damage.
Travel companions	a person who goes with someone who is traveling somewhere
Restricted area	is an airspace of defined dimensions above the land areas or territorial waters of a State, within which the flight of aircraft is restricted in accordance with specific conditions.
Cordoned area	to prevent people from getting into (an area) by putting a line of people or objects around or in front of it
Security guard	a person employed to protect a building against intruders or damage
Security cameras	is a video camera that records people's activities in order to detect and prevent crime.
Security checkpoints	canbe defined as passenger eligibility check before queuing and/or the zone where passengers enter the queue and move towards screening. This area includes pre-screening and queuing, the divest zone and the tray feeding system.
